Work Authorization: Valid Study Permit and Co-op Work Permit through November 30, 2026 | Open to opportunities across Canada

PROFESSIONAL SUMMARY

Applied AI/ML Engineer completing a Post-Diploma Certificate in Integrated Artificial Intelligence at SAIT (expected Dec 2026). Builds reviewable machine learning, NLP, and RAG systems across healthcare, resume intelligence, and policy documents using Python, FastAPI, React/Next.js, PostgreSQL, and Docker. Focuses on per-class evaluation, evidence grounding, human review, and operational reliability, supported by 3+ years of web application development and client delivery experience.

TECHNICAL SKILLS

Languages & Data: Python, SQL, TypeScript, JavaScript, Pandas, NumPy, PostgreSQL, SQLite

ML & Evaluation: scikit-learn, LightGBM, XGBoost, Random Forest, class imbalance, threshold tuning, calibration, per-class metrics

NLP & RAG: Clinical NLP, TF-IDF, SentenceTransformers, embeddings, ChromaDB, semantic retrieval, evidence gating, citations

Engineering & Delivery: FastAPI, Pydantic v2, SQLAlchemy, Alembic, React, Next.js, Streamlit, Docker Compose, pytest, Vitest, GitHub Actions, Azure App Service

SELECTED PROJECTS

TriageAI / SympDirect - Clinical Intake & ESI Care Routing Assistant | github.com/chintan-02/triageai-esi-care-routing

- Built a review-first workflow (React/TypeScript -> FastAPI -> SQLAlchemy -> LightGBM) with evidence-linked clinical NLP that extracts editable intake fields, safety cues, evidence snippets, and missing-data warnings before prediction.
- Evaluated a 273-feature ESI 3/4/5 model at 78.32% accuracy and 70.37% Macro F1; added explicit safety escalation, clinician accept/override decisions, server-side audit evidence, and PDF reporting, with a 0.68% unsafe ESI 3-to-5 rate.

PolicyGPT Enterprise - Evidence-Grounded Policy RAG | github.com/chintan-02/policygpt-enterprise

- Built a Next.js/TypeScript BFF and FastAPI RAG service with PostgreSQL document identity, Alembic migrations, PyMuPDF extraction, SentenceTransformer embeddings, ChromaDB retrieval, evidence gating, page citations, and provider-resilient fallback.
- Validated a 16-case provider-disabled benchmark with 100% expected-page retrieval hit and 0 request errors; implemented 229 backend and 112 frontend tests plus a four-service Docker Compose release profile with health/readiness checks, request IDs, and structured logs.

ResumeIQ - Privacy-Aware Resume Intelligence Platform | github.com/chintan-02/smart-resume-classifier

- Built a multi-format NLP workflow for PDF, DOCX, and TXT resumes using TF-IDF classification, keyword and semantic job-description matching, normalized skill-gap analysis, writing-quality review, privacy-safe display, and human recruiter workflows; deployed a working Streamlit demo on Azure App Service with FastAPI, SQLAlchemy, Docker Compose, pytest, and GitHub Actions foundations.

EXPERIENCE

Web Application Developer | Dreamview Technology

Gujarat, India | Jan 2023 - Dec 2024

- Developed and delivered client web applications end-to-end, from requirements gathering and UI design through implementation, deployment, and support, using JavaScript and REST-style integrations.

Web Developer | Divyaraj Design Inc.

Gujarat, India | Oct 2021 - Nov 2022

- Translated design requirements into responsive, cross-browser interfaces across multiple concurrent client engagements.

Customer Service Associate | Centex Petroleum (Calgary) & Petro-Canada (Edmonton)

Jan 2026 - Present | Feb - Dec 2025

- Maintained accurate transaction processing and customer service in fast-paced retail environments while completing full-time AI studies at SAIT.

EDUCATION

Post-Diploma Certificate, Integrated Artificial Intelligence - SAIT

Calgary, AB | Expected Dec 2026

Post-Graduate Certificate, Supply Chain Management & Logistics - MacEwan University

Edmonton, AB | 2025

Bachelor of Engineering, Computer Science - ITM University

Vadodara, India | 2019

CERTIFICATIONS & TRAINING

AI Bootcamp Certificate of Completion - TalentED Greater Calgary & Skills for Change (2026) • AI Literacy for Everyone - LinkedIn Learning (2026) • SQL Essential Training - LinkedIn Learning
