## SUMMARY

Artificial Intelligence student at SAIT with a Computer Science Engineering background and hands-on experience building data-driven applications, machine learning solutions, and software systems. Skilled in Python, SQL, Data Analytics, Machine Learning, FastAPI, and NLP. Developed and deployed AI applications in healthcare and talent analytics through academic and personal projects. Strong communicator with Canadian customer-facing experience and a practical ability to connect technical work with business value.

## TECHNICAL SKILLS

|                      |                                                                                                             |
|----------------------|-------------------------------------------------------------------------------------------------------------|
| Programming          | Python, SQL, JavaScript, Git / GitHub                                                                       |
| Data Science         | Pandas, NumPy, Scikit-learn, Statistics, EDA, Predictive Analytics, Feature Engineering, Data Visualization |
| Machine Learning     | Classification, Regression, XGBoost, NLP, TF-IDF, Model Evaluation, Predictive Modeling                     |
| Backend & Deployment | FastAPI, Streamlit, REST APIs, Azure, Docker                                                                |
| Databases            | SQLite, SQLAlchemy, PostgreSQL                                                                              |
| AI Practices         | Computer Vision, Explainable AI, Responsible AI, AI Operations, Human-Centred AI                            |

## PROJECTS

### TriageAI — AI-Powered Emergency Triage Decision Support System · [Demo](#) · [GitHub](#)

- Developed an AI-assisted emergency triage platform using Python, FastAPI, Streamlit, SQLAlchemy, and machine learning to support Emergency Severity Index (ESI) classification and healthcare decision support
- Built structured patient intake, clinical safety-rule escalation, explainability summaries, clinician review workflows, dashboard analytics, and automated PDF reporting to improve transparency and usability
- Designed backend APIs and database workflows for patient assessments, triage predictions, review records, and audit-ready reporting in a cloud-deployed application

*Python · FastAPI · Streamlit · Scikit-learn · XGBoost · SQLAlchemy · SQLite · Azure*

### ResumeIQ — AI Resume Intelligence & Candidate Screening Platform · [Demo](#) · [GitHub](#)

- Built an NLP-powered resume analysis platform that parses resume text, scores ATS compatibility, extracts skills, compares resumes with job descriptions, and generates actionable feedback
- Applied TF-IDF, Logistic Regression, feature engineering, and model evaluation to support candidate classification, resume quality assessment, and data-driven recommendations

*Python · NLP · TF-IDF · Scikit-learn · Logistic Regression · FastAPI · Pandas*

## EXPERIENCE

### Customer Service Associate · Centex Petroleum, Calgary, AB · Jan 2026 – Present

- Manage daily customer transactions, resolve service inquiries, and maintain accurate POS operations in a fast-paced Canadian retail environment while completing full-time AI studies at SAIT

**Customer Service Associate** · Petro-Canada, Edmonton, AB · Feb 2025 – Dec 2025

- Processed high-volume POS transactions with accuracy, assisted customers with product and service inquiries, and supported a safe, organized store environment

**Web Application Developer & Founder** · Dreamview Technology, Gujarat, India · Jan 2023 – Dec 2024

- Founded a small web development studio and delivered client websites and web applications, managing requirements, design, development, communication, and delivery from concept to launch
- Built client-facing solutions using JavaScript, front-end development practices, database-backed workflows, and REST-style integrations while managing deadlines independently

## EDUCATION

---

**Integrated Artificial Intelligence — Post-Diploma Certificate** · SAIT, Calgary, AB

Jan 2026 – Aug 2026 (Expected)

Coursework: Applied Statistics · Predictive Analytics · NLP · Computer Vision · AI Governance & Ethics · Human-Centred AI · AI Management & Maintenance · Web Development & Cloud Computing · Capstone Applied Projects

**Supply Chain Management & Logistics — Post-Graduate Certificate** · MacEwan University, Edmonton, AB

Jan 2025 – Dec 2025

**Bachelor of Engineering — Computer Science** · Gujarat Technological University, India

2013 – 2019 · First Class · 60.60%

## CERTIFICATIONS & WORK AUTHORIZATION

---

SQL Essential Training · LinkedIn Learning

AI Literacy for Everyone · LinkedIn Learning · Legally authorized to work in Canada · Valid Study Permit and Co-op Work Permit through Nov 2026
