PROFESSIONAL SUMMARY

Applied AI Engineer specializing in full-stack AI systems, with a Post-Diploma Certificate in Integrated Artificial Intelligence from SAIT. Builds evaluated ML, RAG, and agentic products using Python, FastAPI, React/Next.js, PostgreSQL, Docker, Azure, and GCP, with emphasis on evidence grounding, human review, cloud delivery, and operational reliability. Computer Science foundation with more than three years of software-development and client-delivery experience.

TECHNICAL SKILLS

Languages & Tools: Python, SQL, JavaScript, TypeScript, Git, GitHub Actions, Docker

Machine Learning: scikit-learn, LightGBM, XGBoost, Pandas, NumPy, feature engineering, threshold tuning, calibration, model evaluation

NLP & Retrieval: SentenceTransformers, embeddings, pgvector, ChromaDB, full-text search, hybrid retrieval, evidence gating, page-level citations

Engineering & Cloud: FastAPI, SQLAlchemy, PostgreSQL, React/Next.js, Redis/Dramatiq, pytest/Vitest, Docker Compose, Azure Container Apps, Bicep, GCP Cloud Run

SELECTED PROJECTS

RegImpact AI — Regulatory Change & Controls Assurance Platform | github.com/chintan-02/regimpact-ai

- Built an evidence-linked regulatory intelligence platform with FastAPI/Next.js, PostgreSQL + pgvector, Redis/Dramatiq, hybrid retrieval, control mapping, tenant-aware RBAC, human approval, and audit history.
- Verified v0.5.0 on Azure staging with Container Apps, Bicep, GitHub Actions OIDC, migration-gated promotion, readiness checks, and immutable deployment evidence; production remains intentionally unapproved.

TriageAI / SympDirect — Clinical Intake & ESI Care Routing Assistant | github.com/chintan-02/triageai-esi-care-routing

- Built review-first ESI 3/4/5 ML: 70.37% Macro F1, 0.68% unsafe ESI 3-to-5 rate. Deployed on Cloud Run with PostgreSQL, authenticated workspaces, private PDF storage, scheduled cleanup and verified email alerts.

PolicyGPT Enterprise — Evidence-Gated Policy RAG System | github.com/chintan-02/policygpt-enterprise

- Built verified local v0.3.0 RAG release with Next.js, FastAPI, PostgreSQL, and ChromaDB; added evidence gating, page citations, unsupported-question rejection, confidence diagnostics, Docker Compose, a 16-case benchmark, and 230 backend + 128 frontend tests.

EXPERIENCE

Web Application Developer | Dreamview Technology *Gujarat, India | Jan 2023 – Dec 2024*

- Developed and delivered client web applications end-to-end — from requirements gathering and UI design through development, deployment, and support — using JavaScript and REST-style integrations.

Web Developer | Divyaraj Design Inc. *Gujarat, India | Oct 2021 – Nov 2022*

- Translated design requirements into responsive, cross-browser interfaces across multiple concurrent client engagements.

Customer Service Associate | Centex Petroleum (Calgary, AB) & Petro-Canada (Edmonton, AB) *Feb 2025 – Present*

- Maintained accurate transaction processing and customer service in fast-paced retail environments alongside full-time AI studies at SAIT.

EDUCATION

Post-Diploma Certificate, Integrated Artificial Intelligence — SAIT *Calgary, AB | Aug 2026*

Professional Development Certificate, Supply Chain Management & Logistics — MacEwan University *Edmonton, AB | Dec 2025*

Bachelor of Engineering, Computer Science and Engineering — Gujarat Technological University *Gujarat, India | Aug 2019*

CERTIFICATIONS & TRAINING

AI Bootcamp Certificate of Completion — TalentED Greater Calgary & Skills for Change (2026) • AI Literacy for Everyone — LinkedIn Learning (2026) • SQL Essential Training — LinkedIn Learning
